Re: Off-Site Rule Unacceptability Notice
Republic Services of Ohio II, LLC
dba Countywide Recycling and Disposal Facility
Ohio EPA ID no. 76-00-10

Dear Mr. Vandersall:

Previously, in a letter dated May 30, 2007, my staff informed you that we believed conditions existed at Republic Services of Ohio II, LLC dba Countywide Recycling and Disposal Facility (Countywide RDF) that warranted making Countywide RDF unacceptable to receive waste regulated by the CERCLA off-site rule (40 CFR 300.440). That letter stated that this determination would take effect 60 days from the date of the letter. Furthermore, you were offered the opportunity to meet informally with my staff and staff from the office of Regional Council and to provide written comments.

Subsequently, you and your legal counsel, Jason Perdion, Esq., did participate in an informal conference on July 10, 2007 and submitted subsequent written comments. A preliminary review of the information presented at the informal conference and in the subsequent written comments indicates there is relevant information in these comments to warrant a more detailed review of the response before making a decision regarding whether or not the unacceptability determination should go into effect. However, limitations on staff time in light of other work priorities do not allow sufficient time to conduct the necessary review prior to the expiration of the 60-day deadline.

Therefore, I am exercising the authority present at 40 CFR 300.440(d)(8) as duly delegated to me to extend the 60-day period an additional 14 days to allow sufficient time to review the information provided. This letter will serve as your written notice of the extension of the 60-day period.

If you have any questions regarding this letter, you may write to William Damico, U.S. EPA Region 5, 77 West Jackson Blvd., DE-9J, Chicago, Illinois 60604, or call him at 312-353-8207.

Sincerely,

A handwritten signature in black ink, appearing to read "Margaret M. Guerriero". The signature is fluid and cursive, with a long, sweeping tail that extends to the right.

Margaret M. Guerriero, Director
Land and Chemicals Division
